Neo 2.5 LE offers elegant, modern lines and a larger 2.5 cubic foot firebox for higher heat output. With no-stoop loading, a large glass door, and simplified air control, the Neo 2.5 LE is a practical wood stove with Pacific Energy's clean-burning technology that reduces emissions while maximizing burn length and fuel efficiency. It includes all the features and convenience of the Neo 1.6 LE, including optional porcelain side panels in a variety of dramatic colors, and the ability to use the top as a cook stove. Installation is simplified with leveling legs for uneven surfaces.
