Uuni

Food. Fire. Uuni. Pizza made easy

Introducing the UUNI Pro, expected this November from Cookstoves Canada. The UUNI pro takes the amazing, original design of the UUNI portable pizza oven and moves it to another level.

The Pro is quad fuelled, meaning it is capable of running on pellets, larger pieces of wood, charcoal or

even gas. It has twice the cooking surface of the original UUNI, making it more versatile and allowing for more cooking opportunities for you. Some examples of possible foods to cook include 16" round pizzas, larger roasts, fish, baking breads and even desserts!

At just 57 lbs, the UUNI pro is portable and it's expected to retail at just \$849.

New Group Emails

Effective immediately, Northwest Stoves has edited and added to its group email list. Feel free to use any of the following email addresses for concerns you have in one of the following categories. It will be directed to a team who are responsible for handling things in that area:

orders@northweststoves.ca—any order placed should come to this email address. Please use this address instead of sending orders to individuals at Northwest Stoves to ensure your order does not get missed.

warehouse@northweststoves.ca—any shipping or receiving related items.

warranty@northweststoves.ca—any warranty concerns, questions or forms.

accounting@northweststoves.ca—any accounts receivable or accounts payable concerns or questions.

Northwest Stoves Barbecue Early Buy

As tough as it may be to fathom with the hearth season in full swing, but it's already time to start thinking about next year's grills season. Because of this, we'd like to remind you of Northwest Stoves Barbecue Early Buy, which is on now until the end of October for all Northwest Stoves Primo, Saber and Green Mountain Grill dealers.

This year's early buy presents many different options for dealers to help maxi-

Paramount Fire Glass

Looking for an affordable alternative to line your fireplace or outdoor firepit with fire glass? Than look no further the Paramount's Reflective Fire Glass, available now from Northwest Stoves.

Available in 10 lb. displayable containers or in a 40 lb. box, Paramount Fire Glass comes in midnight sparkle (black), Caribbean Sea (green), Catalina Blue, Burnt Amber and Ice Crystals (clear).

Paramount's Fire Glass will not burn or melt, retains more heat than ceramic logs and emits no offensive odours. It refracts the light of the flames to create a beautiful, shimmering effect.

The 10 lb. containers retail for \$60 and the 40 lb. box lists for \$199. Get some Paramount glass today!

mize their margins. Some of these include volume discounts for larger orders, accessories discounts and even prepaid freight. Some dealers are even eligible for a year-end-rebate based on the full year's purchases.

Mid-season order volume

At this point in late October, I'm sure everyone is exhausted. In fact many of you are booking into January for installations. But please make sure that you allow yourself time to bring in what you need *well in advance*. We have terrific stock levels of most products, but like you, we are experiencing a high sales volume this year and may be out of some things. Give yourself some wiggle room and always check your Order Confirmations to see what may be back ordered.
